

Indigo® NXT

The next generation ice machine

Engineered for Ease

INDIGO[®] NXT

The next generation ice machine

- ▶ Simplicity
- ▶ Sanitation
- ▶ Energy Efficiency
- ▶ Reliability

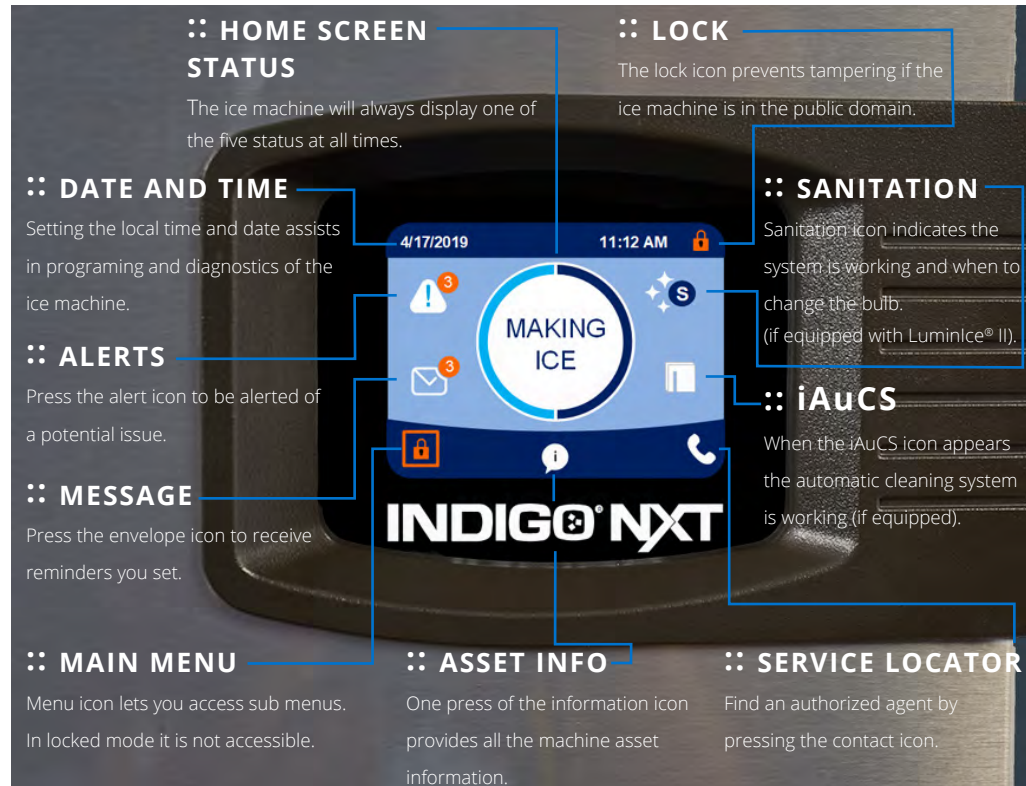

Next level of simplicity

Customize the ice machine to your preference with the easyTouch display

Take the guess work out of owning and operating an ice machine. The icon based, full color touch display sets this ice machine apart from the competition.

Customize your installation utilizing the set up wizard upon first time installation.

- The display can be set in 13 different languages
- Program the ice machine to be off when you don't need ice to save electricity
- Choose a water setting to make clearer cubes or use less water
- View statistics on daily ice production, energy and water usage

Simplicity

INDIGO[®] NXT

The next generation ice machine

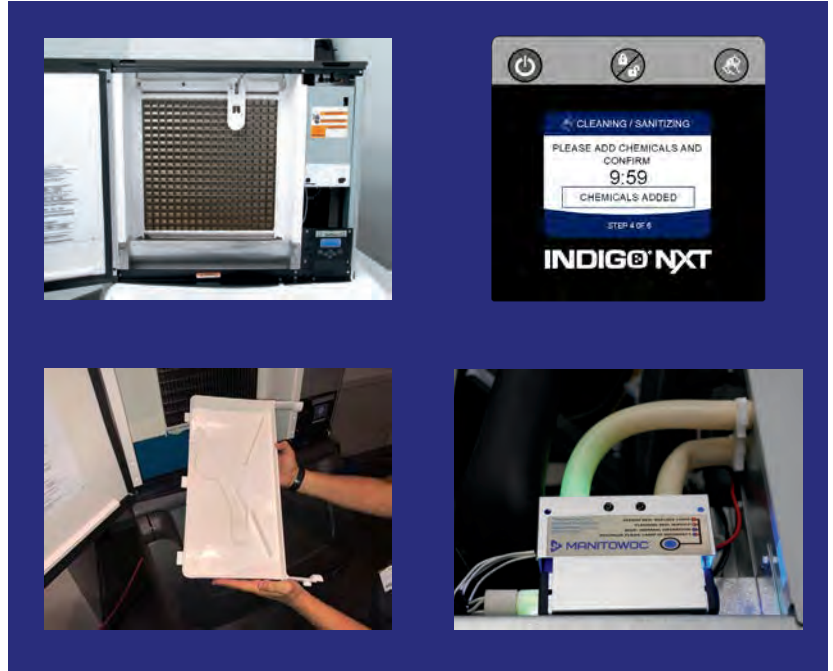

- ▶ Simplicity
- ▶ Sanitation
- ▶ Energy Efficiency
- ▶ Reliability

Next level of sanitation

The easiest ice machine to clean in the industry. With the optional fully integrated Luminice II Virus and Bacteria Inhibitor reduce your annual cleanings and save money.

- Hinge front door that doesn't need to be removed to clean machine
- Top and sides don't need to be removed to clean
- Easy to access food zone with front facing evaporator
- Rounded corners no exposed wires or tubes for easy wipe downs
- Alpha San Microbial Agent on selected food zone components
- One touch cleaning with minimal intervention
- EasyTouch display walks you through the cleaning steps
- Fully integrated optional LuminIce Virus and Bacteria inhibitor keeps the foodzone clean longer

Sanitation

INDIGO[®] NXT

The next generation ice machine

- ▶ Simplicity
- ▶ Sanitation
- ▶ Energy Efficiency
- ▶ Reliability

Next level of energy efficiency

Manitowoc's most efficient ice machine ever, incorporating environmentally friendly designs and superior energy usage for lower long term cost of ownership.

- 50 Energy STAR 3.0 models to choose from*
- Largest portfolio of ENERGY STAR 3.0 models in the industry
- ENERGY STAR models are 8-20% more energy efficient
- R410A Environmentally friendly refrigerant—48% less GWP than R404A
- R410 models are 13% more productive and 12% more efficient
- Condenser water usage reduced by an average of 23%
- Energy and water efficiency can save up to \$2900 over the life of the unit
- AHRI certified to insure performance standards
- *Energy Star models listed June 2021

Energy Efficiency

INDIGO[®] NXT

The next generation ice machine

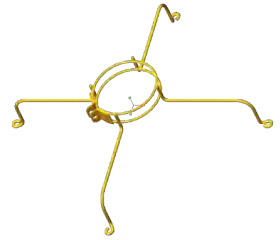

- ▶ Simplicity
- ▶ Sanitation
- ▶ Energy Efficiency
- ▶ Reliability

Next level of reliability

Manitowoc's most reliable ice machine ever, with proven systems, and patented designs, provides years of reliable service

- More than a 3/4 of a million hours of testing prior to launch
- Extended duty relays—longer life with superior performance
- Improved ball bearing fan motors—50x less friction at start up
- Compressor re-alignment for easier servicing
- EasyTouch display ran through a battery of 16 different reliability test
- Improved water trays, with new construction making them easier to install and remove
- Robust fan motor mounts to increase resistant and prevent bending from miss-handling
- Improved packaging to safe guard the product to reduce shipping damage

Exclusive Feature: ACTIVE SENSE

Active Sense is a new software solution that helps an individual ice machine adapt to it's unique environment creating its own ice making profile.

The end result is superior performing ice machines with excellent reliability.

Reliability

INDIGO[®] NXT

Indigo NXT accessories

Manitowoc makes a host of accessories that are fully integrated with Indigo NXT and compliment the D Series ice storage bins.

- The Automatic Cleaning System (iAuCS) - Program the frequency and Indigo NXT automatically de-scales or sanitizes your ice machine with no manual intervention
- Arctic Pure Plus Water Filter - Condition your incoming potable water and Indigo NXT will let you know when its time to change the water filter
- LuminIce II - Keeps the food zone cleaner longer and Indigo NXT will let you know when to change the bulb
- External Scoop Holder - Improve your overall sanitation with this commercial grade NFS approved external scoop holder

Accessories

Automatic Cleaning System (iAuCS®)

Eliminates routine maintenance, iAuCS counts the number of ice-making cycles and at a frequency you select using the easyTouch display, a descaling or sanitizing is performed automatically. Choose from every month or every 6 months. Available for most models.

Arctic Pure Plus Water Filter with Quick Disconnect Design

Ultra fine filtration (0.5 microns) with silver impregnated carbon block and slowly soluble polyphosphates provides triple protection from harmful contaminants that can affect your ice and machine's performance. Certified to NSF standards 42 and 53. The Pre-filter system is recommended for all applications to achieve maximum filtration efficiency and cartridge life.

LuminIce II® Virus and Bacteria Inhibitor

Creates "active air" by recirculating the air under a UV bulb and dispensing it into the ice machine foodzone. The device inhibit the growth of yeast, bacteria and other common micro organism inside the machine. The easyTouch display lets you know when to change the bulb.

External Scoop Holder

The commercial grade NSF approved external scoop holder works with the new D-bin scoop and the optional Manitowoc metal scoop. Can be configured 7 different ways, either bin mount or wall mount, vertical or horizontal.

Manitowoc Indigo NXT: engineered for ease

Food service operation is a complicated business. With so many moving parts, it is hard to keep things running smoothly and efficiently. You want your ice machine to be worry-free and easy to own and operate. Manitowoc is dedicated to creating a simple ice machine that gives you peace of mind to manage the rest of your organization. Backed by a heritage of experience and expertise, our dependable solutions are designed to help you conserve your resources and concentrate on what matters most, your customers.

At Manitowoc we are proud to harness that thoughtful engineering to make your life easier.
